Obituary

Desmond Aubrey Pretorius (1925-1998). An appreciation by Carl. R. Anhaeusser and Richard W. Hutchinson 1

Neoproterozoic high-pressure metamorphism and tectonic constraint from the nappe system south of the São Francisco Craton, southeast Brazil
M. da C. Campos Neto, R. Caby 3

A 2.7 Ga depleted tholeiite suite: evidence of plume-arc interaction in the Abitibi Greenstone Belt, Canada
D.A. Wyman 27

U-Pb zircon ages of granites from the southern margin of the Yangtze Block timing of Neoproterozoic Jinning: Orogeny in SE China and implications for Rodinia Assembly
X.-H. Li 43

Spatial and temporal variations in carbon and sulfur isotopic compositions of Sinian sedimentary rocks in the Yangtze platform, South China
R. Li, J. Chen, S. Zhang, J. Lei, Y. Shen, X. Chen 59

Geochemical and U-Pb zircon geochronological constraints on the development of a Late Archean greenstone belt at Birch Lake, Superior Province, Canada
G.P Beakhouse, L.M. Heaman, R.A. Creaser 77

Organic-walled microfossils from the Chert-phosphorite Member, Tal Formation, Precambrian-Cambrian Boundary, India
M. Tiwari 99

Characterization of fluvial deposits interbedded with flood basalts, Neoproterozoic Catoctin Formation, Central Appalachians, USA
K.A. Dilliard, E.L. Simpson, R.C. Noto, M. Wizevich 115

Book review

Geology of Arunachal Pradesh; Geology of Rajasthan
B. Chadwick 135

Special Issue

Variation in sea level and continental freeboard: evidence from the Precambrian volcano-sedimentary record

Preface

Variation in sea level and continental freeboard: evidence from the Precambrian volcano-sedimentary record
P.G. Eriksson, P.K. Bose and W. Altermann 137

Sea level changes and the continental freeboard concept: general principles and application to the Precambrian
P.G. Eriksson 143
Why was flood volcanism on submerged continental platforms so common in the Precambrian?
N. Ardnt 155
Chronological correlations between the Pilbara and Kaapvaal cratons
D.R. Nelson, A.F. Trendall and W. Altermann 165
The auriferous Late Archaean Central Rand Group of South Africa: sea-level control of sedimentation?
W.P. Karpeta and B.G. Els 191
The sequence stratigraphic concept and the Precambrian rock record: an example from the 2.7–2.1 Ga Transvaal Supergroup, Kaapvaal craton
O. Catuneanu and P.G. Eriksson 215
Application of the parasequence concept to the Paleoproterozoic record of the northern Fennoscandian Shield
K. Strand and K. Laajoki 253
The 2.7—2.0 Ga volcano-sedimentary record of Africa, India and Australia: evidence for global and local changes in sea level and continental freeboard
P.G. Eriksson, R. Mazumder, S. Sarkar, P.K. Bose, W. Altermann and R. van der Merwe . . . 269
Neoproterozoic to Early Cambrian Crustal Evolution of the Pan-African Saldania Belt, South Africa
A. Rozendaal, P.G. Gresse, R. Scheepers and J.P. Le Roux 303
